

# OPEN YOUR EYES

ICES is a nonprofit organization dedicated to promoting a peaceful world by increasing international awareness and understanding through cultural sharing experiences.

As the global community we live in becomes increasingly interdependent and subject to change, today's young people will face numerous challenges on the journey to becoming tomorrow's leaders.

We believe the foreign student exchange experience helps young people of all nationalities embrace those challenges and discover new opportunities that will help them dream and achieve more than they ever thought possible.

## ...to the Wonderful World of ICES, and Host an International Student!

**Local Host Families are needed for International students for the coming school year. Have you ever considered hosting an exchange student? Now is your chance! International Cultural Exchange Services (ICES) is seeking families interested in hosting international high school students, ages 15-18, from Europe, Latin America and Asia for the 2018-19 School Year. Students have their own spending money and insurance, and a local coordinator provides supervision and support. Hosting an exchange student is a rewarding way to experience another culture. The benefits are endless when you open your heart and home to welcome a new son or daughter into your family!**
